Accurate Color For All Your Devices

Calibration for Cameras, Displays and Printers

Color Perfectionists know that a calibrated and profiled workflow is a critical element in a successful and efficient creative workflow. What you capture on your camera, see on your monitor (or projector) or view on your print has to match or you will never be happy with the result no matter how much time you devote to perfecting it. i1 solutions provide the highest level of color accuracy in the industry with unrivalled speed, accuracy and flexibility. From software to hardware, Color Perfectionists can now choose the ideal i1 solution for their experience, budget and specific needs.

For Displays

i1Display Studio
Advanced display calibration for enthusiast and professional photographers looking for a convenient, easy and affordable solution.

i1Display Pro
The i1Display Pro is the ultimate solution for Color Perfectionists who demand speed, advanced control and flexibility to attain color accuracy.

All-in-One for Camera, Displays and Printers

i1Studio
The start-to-finish color management solution for creatives looking for perfect results. The color of your prints will match your vision more perfectly than you ever thought possible.

i1Photo Pro 2
Quickly create custom camera, monitor, projector, scanner and RGB printer profiles, ensuring the colors you capture, view and print are true.

For Cameras and Displays

i1 Display Pro Plus

Ultimate display calibration for the most demanding filmmakers and photographers looking for advanced options and maximum control for super-bright HD & HDR monitors.

i1 ColorChecker Photo Kit

An i1 Display Studio and ColorChecker Passport Photo 2 bundled into one convenient box to save you money. For quick and easy calibration and the perfect tool for color balancing your photo shoots.

i1 ColorChecker Photo Pro Kit

An i1 Display Pro and ColorChecker Passport Photo 2 bundled into one convenient box to save you money. For professional level calibration and the perfect tool for color balancing your photo shoots.

i1 ColorChecker Filmmaker Kit

An i1 Display Pro Plus and ColorChecker Passport Video bundled into one convenient box to save you money. This kit includes the essential color tools to achieve a fast, efficient color balance for any video production.

i1 Photo Pro 3 Plus

The i1 Photo Pro 3 Plus is designed for photographers who are looking for perfectly accurate color in RGB print workflows, especially on more challenging glossy and textured photo media.

> "For both still and video production an accurate color workflow is essential for getting the best color and image quality. X-Rite has been leading the pack for years now with their stellar camera, monitor and printer calibration solutions and these new i1 products help me perfect my images."
